Benefits of adhering to the FX Global Code for the buy side

Quotes from buy-side members of the Swiss FX Committee which highlight their most important reasons for committing to the Code. For more details, please contact them directly.

State-of-the-art processes

"The FX Global Code helped us to improve our processes not only for FX, but for all financial markets. Our internal and external stakeholders know that we adhere to state-of-the-art operating procedures."

Mutual trust due to high standards

"With our adherence to the FX Global Code, we primarily express our own ambition to comply with the highest market standards. We expect our partners to act in accordance with the FX Global Code."

Learning opportunity

"The FX Global Code helps to identify knowledge gaps. It is an opportunity to learn."

Demonstrating best practices in public register

"Publishing a Statement of Commitment in one of the free public registers signals to customers, counterparties and regulators alike that your institution is aware of best practices."

Improving governance (G) in your ESG policy

"The FX Global Code helped us improve our governance in line with our ESG principles."

Get involved

"Buy-side companies are important market participants, and their commitment to a fair and well-functioning market is welcomed regardless of their size. By committing to the FX Global Code, companies can apply for a membership in a local FX committee."

Get advice from peers

"The local FX committees are groups of experts from the private and the public sector. You can ask experts questions or discuss unusual situations and benefit from their expertise."

Voluntary

"The FX Global Code is voluntary and market participants adhere only to principles, which apply to material activities of their business. A self-assessment tool facilitates this decision."
