<b>195</b>	Figures in bold type show new or revised values.

### Rounding differences

Deviations between the totals and the sums of components are due to rounding.

### Revision procedure

Annual revisions are conducted in connection with the publication of the Swiss balance of payments in August. In addition, direct investment flows and income are revised when the report on direct investment is published in December. When the provisional data for the year under review are published in August, the figures for the previous period are generally also revised.

For these revisions, information supplied after the deadline and new data from secondary sources are taken into account; provisional estimates are revised or replaced.

If the new information relates to periods dating even further back, the older figures are also revised. Methodological modifications, new classifications and new sources – also for periods dating further back – are discussed in the explanatory notes of the publication in question.

### Long time series

The balance of payments tables, including tables covering longer periods of time, are available on the SNB website in a format that can be processed electronically: [www.snb.ch](http://www.snb.ch), *Publications, Swiss Balance of Payments* (annual report).
