¹ From 3 January 2000 until 13 June 2019, the SNB set a target range for the three-month Swiss franc Libor. From 13 June 2019, the SNB policy rate is applied. Cf. also the press release on the monetary policy assessment of 13 June 2019.

² SARON is a reference interest rate for overnight transactions in the secured Swiss franc money market. It is calculated on the basis of data (transactions and binding quotes) posted on SIX Repo Ltd’s electronic trading platform. SARON is administered by SIX.

³ The special rate is calculated as the current SNB policy rate plus a surcharge of 50 basis points. The special rate always amounts to at least 50 basis points.

⁴ Charged only on the portion of the sight deposit account balance which exceeds a certain threshold (exemption threshold).
Press release

Average of sight deposits in Swiss francs at the SNB for the week ending 11 October 2019

In CHF millions
