Zurich, 31 October 2017

Interim results of the Swiss National Bank as at 30 September 2017

The Swiss National Bank (SNB) reports a profit of CHF 33.7 billion for the first three quarters of 2017.

A valuation gain of CHF 2.3 billion was recorded on gold holdings. The profit on foreign currency positions amounted to CHF 30.3 billion, and the profit on Swiss franc positions to CHF 1.5 billion.

The SNB's financial result depends largely on developments in the gold, foreign exchange and capital markets. Strong fluctuations are therefore to be expected, and only provisional conclusions are possible as regards the annual result.

Profit on foreign currency positions

The net result on foreign currency positions amounted to CHF 30.3 billion.

Interest income accounted for CHF 6.8 billion and dividends for CHF 2.5 billion. Movements in bond prices differed from those in share prices. A loss of CHF 4.0 billion was recorded on interest-bearing paper and instruments. By contrast, equity securities and instruments benefited from the favourable stock market environment and contributed CHF 14.4 billion to the net result. Overall, exchange rate-related gains amounted to CHF 10.5 billion.

Press release

Valuation gain on gold holdings

A valuation gain of CHF 2.3 billion was achieved on gold holdings, which remained unchanged in volume terms. Gold was trading at CHF 40,071 per kilogram at end-September 2017 (end-2016: CHF 37,885).

Profit on Swiss franc positions

The net result on Swiss franc positions totalled CHF 1.5 billion overall, which essentially resulted from negative interest charged on sight deposit account balances.

Provisions for currency reserves

As at end-September 2017, the SNB recorded a profit of CHF 33.7 billion, before the allocation to the provisions for currency reserves.

In accordance with art. 30 para. 1 of the National Bank Act, the SNB is required to set aside provisions permitting it to maintain the currency reserves at the level necessary for monetary policy. The allocation for 2017 will be determined at the end of the year.

Appendix

Accounting and valuation principles

The SNB is a special-statute joint-stock company with head offices in Berne and Zurich. These interim results have been drawn up in accordance with the provisions of the NBA and the Swiss Code of Obligations (CO) as well as the accounting principles detailed in the notes to the annual financial statements as at 31 December 2016. These results present a true and fair view of the financial position and the results of operations of the SNB. Unless otherwise stated, the accounting principles are based on the Swiss GAAP FER standards (Accounting and Reporting Recommendations). Departures from Swiss GAAP FER occur only if an accounting principle runs counter to the provisions of the NBA or if the special nature of the SNB needs to be taken into account. In a departure from Swiss GAAP FER, no cash flow statement has been prepared. The structure and designation of the items in the balance sheet and the income statement take into consideration the special character of the business conducted at a central bank.

Compared with the annual financial statements as at 31 December 2016, there were no changes to the accounting and valuation principles.

The SNB interim results as at 30 September 2017 constitute an interim report in accordance with Swiss GAAP FER 31, with condensations in presentation and disclosures.

Swiss GAAP FER 31 requires the presentation of earnings per share. This has no informative value in view of the special statutory provisions for the SNB. Shareholders' rights are determined by the NBA and their dividends, in particular, may not exceed 6% of share capital (with a nominal value of CHF 250 per share, a maximum of CHF 15); the Confederation is entitled to one-third and the cantons to two-thirds of the remaining distributable profit. Therefore, no presentation of earnings per share is made.
